

GLI's Global Professional Services Division Provides Project Management Expertise to Atlantic Lottery

MONCTON, New Brunswick, Canada (June 4, 2012) – GLI, the world's leading gaming testing laboratory and technical consultancy, and its Global Professional Services division have been engaged to provide project management services for Atlantic Lottery's Video Lottery Replacement Project.

GLI has been engaged to deliver program and project management services in compliance with the Project Management Institute (PMI)'s body of knowledge. The key elements of the initiative are the replacement of approximately 5,900 obsolete video lottery terminals as part of planned business operations.

Atlantic Lottery's Chief Technology Officer James Porter said, "I strongly recommend GLI. This project requires the management of multi-vendors in a technically complex environment. GLI's project management skill and process improvement abilities allow them to perform at a senior level and coordinate multiple sub-project streams. This role also requires above average meeting facilitation skills."

Senior Category Manager of Destination Gaming with Atlantic Lottery Byron Bridger reaffirmed, "I strongly recommend GLI. Our project has progressed well. The governance and program structure established by GLI has enabled communication and integration of this complex project. GLI's approach and leadership with our vendors has facilitated a team approach with all vendors working towards a unified goal."

GLI's Global Professional Services division offers a wide range of project management services to lotteries, from project health-check and recovery analysis, to the outsourcing of seasoned project managers.

"Lotteries are facing unprecedented competition in the entertainment market, and delivering state of the art systems is critical to sustainable growth. Project managers must be drivers, serving as the catalyst for movement and action providing value to the business. In doing so, they enable their teams to deliver higher quality projects and longer lasting results," said Greg Doucette, Director of GLI's Global Professional Services division.

"To be entrusted with project management for such a monumentally important initiative speaks volumes on the level of trust and confidence Atlantic Lottery places in our abilities. Our independent PMP®-designated project managers are the best in class, and are armed with the requisite project management skills and gaming knowledge to pull such an initiative off successfully" added Salim Adatia, CEO of GLI Canada.

For more than 20 years, Gaming Laboratories International, LLC has been the world leader in providing independent testing, inspection and certification services to the gaming, wagering and lottery industry. GLI also offers independent network and information security assessments to its regulatory, lottery and supplier clients. With 20 laboratory locations located across Africa, Asia, Australia, the Caribbean,

Europe, North America and South America, GLI is the only global organization of its kind to hold U.S. and international accreditations for compliance with ISO/IEC 17025, 17020 and Guide 65 standards for technical competence in the gaming, wagering and lottery industries.
